PROFESSIONAL SUMMARY

BCA graduate with strong foundation in Java, Object-Oriented Programming, and backend development using Spring Boot. Hands-on experience in developing REST APIs, database-driven applications, and integrating enterprise data systems. Passionate about building scalable and efficient backend systems. Seeking an entry-level Java Developer role to contribute to application development and system optimization.

TECHNICAL SKILLS

- **Programming Languages:** Java, C, C++
- **Java Technologies:** Spring Boot, JDBC
- **Web Technologies:** HTML, CSS
- **Database:** MySQL, SQL
- **Concepts:** OOP, Collections Framework, Exception Handling, MVC Architecture, REST APIs
- **Tools:** Git, VS Code, MS Excel, Postman, Maven

PROJECTS

- **Hotel Booking Website - StayVida**
 - Developed a Spring Boot-based backend application implementing RESTful APIs for booking and user management, performing CRUD operations with MySQL.
 - Implemented MySQL database schema for reservation and user data.
 - Applied OOP principles and exception handling for robust backend logic.
 - Ensured efficient data retrieval using optimized SQL queries.
- **Purchase Order Tracking System - Atlas Copco**
 - Built real-time purchase tracking system integrating SAP-generated Excel data.
 - Designed relational database for efficient order tracking and reporting.
 - Improved tracking accuracy and reduced manual monitoring delays.
 - Applied database normalization for structured data management.
- **Event Portfolio Website - Siddhu's Events**
 - Developed responsive website with clean UI design.
 - Implemented structured layout for improved user navigation.

EDUCATION

- Bachelor of Computer Application (BCA) – 2024 - CGPA: 7.58
